

BOARD OF DIRECTORS

Selena Joe
Newton, MA

Selena is currently a senior manager in the Strategy and Operations practice at Deloitte Consulting. She has more than 13 years of experience focusing on healthcare technology and clinical transformation with large healthcare systems. Many health organizations are transitioning and leveraging electronic health information by incorporating automated/system workflows for clinicians to care for patients in a clinic and hospital setting. Selena specializes in end to end IT/Electronic Health Record (EHR) implementations by working with clinicians on process design, patient safety and quality of care, and performance improvement opportunities. Selena enjoys working with children and strives to continue to build the Girl Scout community in eastern Massachusetts through mentorship and leadership development. She is a graduate of Carnegie Mellon University in Pittsburgh, where she received a bachelor's degree in policy and management and a master's degree in information systems management.
