massachusetts

GSEMA seeks dynamic women who wish to serve as empowering role models for Girl Scouts through the Women’s Advisory Network (WAN).

WAN members are more than advisors or donors—they’re mentors, advocates, and lifelong allies to girls, troop volunteers, and the eastern Massachusetts Girl Scout community. This distinguished group is united by a shared belief in a girl’s potential and values the community, friendships, and professional support that the network provides. Members commit to sharing their influence and expertise with the council and work together to raise the profile of Girl Scouting within the corporate community.

ABOUT WAN

The Women’s Advisory Network members represent diverse backgrounds and industries and are driven by a shared passion: helping girls thrive through Girl Scouts. As a trusted resource and sounding board for the GSEMA Board and CEO, they bring their voices, expertise, and support to advance Girl Scouts’ mission to build girls of courage, confidence, and character who make the world a better place. This committed group is focused on empowering Girl Scouts with the tools, support, and confidence they need to realize their full potential.
