

STEM Programs by Request, Straight to Your Space

Schedule a visit from our mobile learning center, STEM ON-THE-GO, and bring the wonders of science, technology, engineering, and math directly to Girl Scouts in grades K-12.

Alternative Energy

Discover the science behind solar panels, wind turbines, and other renewable energy! Practice with circuits, measure outputs, and explore fuel cells.

Coding and Robots

Learn to code by programming a robot to navigate a maze and complete other challenges!

Drones

Learn to operate a drone and determine how to use drones to help communities and expand our understanding of science.

Ecology

Dig into the natural world and explore ecosystems! Examine animal skulls and tracks, collect nature samples, and see under a microscope.

Inventor

Learn to use fun tools, solve problems, and bring your own invention to life!

Space Science

Take a walk through the solar system! Explore the sun, moon, planets, and more! Learn how a telescope works and use one to see more of space.

How to Book!

Scan code or visit:
gsema.checkfront.com/reserve

1. Select STEM ON-THE-GO and enter your date, time and number of participants to add to your cart.
2. Read the important information under the item in your cart, select the program you'd like to request, and then fill the requested information.
3. Enter as much information as possible about the location you'd like to host the STEM ON-THE-GO program. If you do not know the answers to some of the questions, you can discuss the specifics with a GSEMA staff member at a later time.
4. Look out for an automated confirmation email from **Checkfront** to verify we have received your request.

Pricing:

\$360 per visit for up to 12 participants. Additional participants (up to 24) are \$30 each. 50% deposit due at time of booking.

For special requests, large events, or financial assistance, email us at customercare@gsema.org.
